Metric DIN 11024 Spring Cotter Pins also known as "R" Clips. They are generally used to secure bolts to axles or any pin that uses a hole for attachment. The double coil allows an attachment cable to be installed avoid losing the pins. Installation is very easy and can also be removed easily for reusability, Unique Fasteners offers one of the most complete ranges of metric pins and other inch and metric industrial fasteners for immediate delivery from stock. The following sizes of DIN 11024 Spring Cotter Pins/ R Clips are available for immediate shipping from stock: Diameters ranging from M2.5 to M8 in marine grade A4 stainless steel.
