Metric DIN 7971 Pan Head Slot Drive Self Tapping Sheet Metal Screws are thread forming screws that tap their own threads in the substrate into which they are driven – usually thin metal. The slot drive accepts a single blade slot screwdriver ideal for simple manual applications. DIN 7971 Pan Head Slot Drive Self Tapping Sheet Metal Screws are to be used with pre-drilled, punched or nested pilot holes in sheet metal or other solid materials. Unique Fasteners offers the following sizes for immediate delivery from stock: Diameters ranging from M2.2 to M6.3 up to 70mm in length and available in A2 stainless steel.

DIN (**D**eutsches **I**nstitut für **N**ormung - German Institute for Standardization) standards are issued for a variety of components including industrial fasteners as DIN 7971 Pan Head Slot Drive Tapping Screw. The DIN standards remain common in Germany, Europe and globally even though the transition to ISO standards is taking place. DIN standards continue to be used for parts which do not have ISO equivalents or for which there is no need for standardization. In this case the IOS equivalent for DIN 7971 Pan Head Slot Drive Tapping Screw is ISO 1481.
