Metric DIN 934 Hexagon Nuts are the most common standard for metric hex nuts used in many applications where a metric nut is required. Unique Fasteners offers the following sizes for immediate delivery from stock: Diameters ranging from M1 to M52 available in A2 and marine grade A4 stainless steel, aluminum, brass, steel and nylon..

DIN (**D**eutsches **I**nstitut für **N**ormung - German Institute for Standardization) standards are issued for a variety of components including industrial fasteners as metric DIN 934 Hexagon Nuts. The DIN standards remain common in Germany, Europe and globally even though the transition to ISO standards is taking place. DIN standards continue to be used for parts which do not have ISO equivalents or for which there is no need for standardization. The ISO equivalent for DIN 934 is ISO 4032.
